

I urge you to reject the proposed Changes in Service outlined in N-2021-1, which would dramatically slow, and even eliminate, mail delivery. It is a serious disservice to millions of U.S. citizens like me who rely on a modern, timely and affordable mail service for bill paying, correspondence, medicine delivery and contact with our friends and loved ones.

Please reject the draconian changes outlined in the N-2021-1 proposal and restore the integrity of the US Postal Service.

Thank you,

Diana Partin
